

# How can our products protect you from norovirus?

---

Swipe to find out

**gama**  
healthcare

# Clinell Universal Wipes **kill 99.99%** of norovirus in **60 seconds.**

---

Norovirus particles spread over surfaces so it's important to keep them clean, particularly in households, hospitals and long-term care settings.

# Rediroom provides additional isolation space for patients under gastroenteritis precautions.

---

It can be used with Clinell Easyclean Commode with blinds raised for privacy. Equipping hospitals with a new way to isolate infectious patients.

**Alcohol gel doesn't kill  
norovirus and other  
important pathogens.  
Soap and warm  
water is always best.**

---

Unlike alcohol gels, Clinell Hand Wipes clean and sanitise. They're proven to be as effective as soap and water, ideal for when you don't have access to a sink.
